P82 Olivetti Anchor

The P82 Olivetti Anchor is designed to be used with the P86 Olivetti Ring Clutch for edge lifting of precast and tilt-up panels.

The ears on the head of the Olivetti Anchor prevent the ring clutch head from applying load to the concrete minimising concrete spalling.

All Olivetti Anchors are designed to accept the required shear bar and tension bar where specified for additional capacity.

Part No.	Description	Туре
P823	Olivetti Anchor	3t
T845	Olivetti Anchor - complete with shear block and disposable void	5t
P827	Olivetti Anchor	7t
P829	Olivetti Anchor	9†

Part No.	Description	Туре	Bar Diameter
P883	P59 Shear Bar	3†	12mm
P889	P59 Shear Bar	7t, 9t	16mm

Olivetti 7t Face Anchor

The Olivetti 7t Face Anchor has been developed for those that use either the 7t or 9t Olivetti Edge Lift Anchors and want the convenience of a face lift anchor that can be used with the same clutch.

Part No.	Description	Туре
P83FL	Olivetti Face Anchor	7t
P83FLCP	Olivetti Face Anchor complete with Void	7 †

P83 Olivetti Void Former

The P83 Olivetti Void Former holds the Olivetti Anchor in place during the concrete pour and creates a void in the concrete so that the clutch can engage with the anchor.

It can be fixed to the formwork using either a P84 Holding Rod or a P85 Fixing Plate.

Part No.	Description	Туре
P833	Olivetti Void Former	3t
P839	Olivetti Void Former	7t, 9t
P853	Olivetti Void Former Fixing Plate	3t
P859	Olivetti Void Former Fixing Plate	7t, 9t

Olivetti Void Former Fixing Plate

Part No.	Description	Туре
P853	Olivetti Void Former Fixing Plate	3†
P859	Olivetti Void Former Fixing Plate	7t, 9t

The P85 Olivetti Void Former Fixing Plate can be used to fix the P83 Void Former to timber forms.

P86 Olivetti Ring Clutch

Part No.	Description	Туре
P863	Olivetti Lifting Ring Clutch	3t
P865	Olivetti Lifting Ring Clutch	5t
P8610	Olivetti Lifting Ring Clutch	10 1

The P86 Olivetti Ring Clutch is the compatible clutch for the P82 Olivetti Anchor.

P60 Tension Bar

Part No.	Description	Туре	Bar Diameter
P603	P60 Tension Bar	3t	12mm
P605	P60 Tension Bar	5t, 7t, 9t	16mm
P6010	P60 Tension Bar	10t	20mm
P6020	P60 Tension Bar	20†	32mm

The P53 Eye Anchor must be used in conjunction with the P60 Tension Bar in order to develop its full working load limit. The P60 Tension Bar is also used for the P82 Olivetti Anchor.

T-41 Ground Release Insert

The Nexus T-41 and T-81 ground release inserts are a simple and fast method of lifting concrete tilt-up wall panels into position and allows hardware to be easily released from the ground. Available in 5t and 10t capacity.

Part No.	Description	Dimension	WLL	Box Qty
T41125	T-41 Ground Release Insert	125mm	5t	20
T41150	T-41 Ground Release Insert	150mm	5t	20
T41175	T-41 Ground Release Insert	175mm	5t	20
T41200	T-41 Ground Release Insert	200mm	5t	20
T41250	T-41 Ground Release Insert	250mm	5t	20
T41300	T-41 Ground Release Insert	300mm	5t	20

T-81 Ground Release Insert

Ground release inserts are a simple and fast method of lifting concrete tilt-up wall panels into position

Part No.	Description	Dimension	WLL	Box Qty
T81170	T-81 Ground Release Insert	170mm	10t	15
T81175	T-81 Ground Release Insert	175mm	10t	15
T81200	T-81 Ground Release Insert	200mm	10t	15
T81250	T-81 Ground Release Insert	250mm	10†	10
T81300	T-81 Ground Release Insert	300mm	10†	10

^{*}Other sizes available on request

T43R Ground Release Clutch

The Nexus T43R Ground Release Clutch 5t is a simple and quick method of face lifting Tilt-Up panels.

The lifting body can be quickly attached to the Nexus T-41 Face lift insert and a rope attached to the release arm allows the clutch to be released from the ground once the crane load is removed.

The Nexus T83R Ground Release Clutch is the 10t version designed to be used with Nexus T-81 face Lift insert.

Part No.	Description	Working Load Limit
T43R	Ground Release Clutch 5t	5†
T83R	Ground Release Clutch 10t	10 1

T52 Edge Lift Anchor

The T52 Edge Lift Anchor is available in 2.5t and 5t comes pre-assembled complete with plastic disposable void and 6.3mm diameter shear bar.

Part No.	Description	Box Qty.
T5225	Edge Lift Complete 2.5t	40
T525	Edge Lift Complete 5t	20

P52 Foot Anchor

The Nexus P52 Foot Anchor is forged from carbon steel that obtains the minimum 2.25 factor of safety as set out in AS3850.

P55 Rubber Void Former

Part No.	Description	Туре
P551	Void Former Rubber	1.3t
P552	Void Former Rubber	2.5t
P555	Void Former Rubber	5t
P5510	Void Former Rubber	10t
P5520	Void Former Rubber	20t

The Nexus P55 Rubber Void Former is used to form a cavity around the head of the Nexus P52 Foot Anchor and the Nexus P53 Eye Anchor. The P55 recess void former is bolted to the form using a stud and wing nut combination (P63 Male Connector). The P64 Female Connector is used in situations where the formwork cannot be removed horizontally and must be stripped vertically.

P63 Void Former Male Connector

Part No.	Description	Туре
P631	Void Former Male Connector	1.3†
P632	Void Former Male Connector	2.5†
P635	Void Former Male Connector	5t

P57 Steel Void Former

Part No.	Description	Туре
P571	Void Former Steel	1.3t
P572	Void Former Steel	2.5t
P575	Void Former Steel	5†
P5710	Void Former Steel	10t
P5720	Void Former Steel	20t

For concrete moulds where the same product is repetitively made, the P57 Steel Void Former is the ideal solution. Made from steel, it's long lasting and the only replacement part is the inexpensive P58 Rubber Ring.

P58 Rubber Ring for Steel Void Former

Part No.	Description	Туре
P581	Rubber Ring for Steel Void Former	1.3†
P582	Rubber Ring for Steel Void Former	2.5†
P585	Rubber Ring for Steel Void Former	5t
P5810	Rubber Ring for Steel Void Former	10t
P5820	Rubber Ring for Steel Void Former	20†

P56 Articulated Void Former

Part No.	Description	Туре
P561	Void Former Articulated	1.3†
P562	Void Former Articulated	2.5†
P565	Void Former Articulated	5†

The P56 Articulated Void Former is an alternative to the rubber and steel void formers. The half's rotate around a centre fixed section allowing easy insertion of the foot anchor and removal after the concrete is set.

T75 Emergency Lifting Plate

The T75 Emergency Lifting Plate can be used in situations where a cast in lifter has become unusable, typically due to being misplaced or missing completely.

Part No.	Description
T75	Emergency Lift Plate

Strongbacks

Tilting up panels with large openings can result in large stresses applied to the concrete sections either side of the opening that standard reinforcing cannot handle.

In order to stiffen these sections Nexus Strongbacks can be used. These are bolted into the panel with strongback bolts that are screwed into previously cast Coil Ferrules or alternatively a 12mm Threaded Bar Ferrule can be cast and a Threaded Bar Wingnut can be used with a TB 12 x 540mm Starter Bar.

Strongbacks are available for hire in sizes 1800mm, 2700mm and 3600mm.

Part No.	Description
SBJB	Strongback Joining Bolt & Nut
HT63SB	Strongback Bolt
HT63WN	Strongback Wing Nut
SBPL	Strongback Plate
SB12WN	Strongback Wing Nut TB 12mm
TB12540	TB Starter Bar 12mm x 540mm

F43 Standard Ferrules

Designed for heavy duty anchoring, F43
Ferrule inserts are cast-in anchors. Finishes include zinc plate, galvanized, also available in stainless steel. Standard Ferrules require an N12 x 300 mm reinforcing bar to be installed through the cross hole to achieve the full design capacity.

F44 Star Ferrule

Also designed for heavy duty anchoring, the F44 Star Ferrule inserts are cast-in anchors available in zinc plate finish, galvanised or stainless steel. Star Ferrules do not require a cross bar to be installed to obtain the full working load. However, a cross hole is provided to allow a 300mm long bar to be installed if required for ductility performance.

formwork

Nexus Easyform

Nexus Easyform is an easy to use stack casting system for making precast panels on site.

Precast quality panels made on site

- / Requires no timber or nailing
- / Stack cast any size panel with ease
- Re-usable and durable for many years of service
- / Concrete pouring is much easier with no obstructions
- / Requires minimal training
- Lightweight

Part No.	Description	Dimensions	Qty
T60126	Nexus Easyform	5.8m x 125mm	per length

Nexus Cast - In Plate

The Nexus Cast-in plate system is a fully engineered range of concrete cast-in plates for easy installation for panel to steel, panel to panel and panel to slab connections.

The Nexus Cast-in plate is anchored to the concrete by embedded studs butt-welded onto the rear of the plate.

The unique clip-on chair can be cut to length to allow for various thickness panels.

brace hire

The Nexus Panel Brace is used to temporarily support the precast or tilt-up panel in its final position while connections are installed.

Nexus is developing better bracing solutions to save you time, money and risk.

Nexus can handle any size project from small factories to high-rise and other major projects.

Double Bolt Brace Foot

Perfect for high capacity bracing.

In many situations the weakest link in the bracing system is the structural connection to the floor slab or deadman footing.

The Double Bolt Brace Foot uses two bolts to increase the capacity of the bracing system and reduce the overall number of braces required.

Brace Type	Closed (mm)	Open (mm)
SO	1450	2200
S1	2500	3700

The self-cleaning thread on Nexus braces means no more jamming when adjusting braces.

The curved profile of the coil thread means concrete breaks away from the thread more easily compared to the square thread.

key points

- / Large stocks available
- Competitive rates
- Reliable pickup and delivery service
- Braces for oversize and non-standard panels
- Fully inspected and maintained prior to despatch as per National Code A of Practice requirements.
- Certified bracing solutions available
- Designed tested and manufactured by Nexus Construction Systems to Australian Standard As3850

Strongbacks

Tilting up panels with large openings can result in large stresses applied to the concrete sections either side of the opening that standard reinforcing cannot handle.

In order to stiffen these sections Nexus Strongbacks can be used. These are bolted into the panel with strongback bolts that are screwed into previously cast Coil Ferrules or alternatively a 12mm Threaded Bar Ferrule can be cast and a Threaded Bar Wingnut can be used with a TB 12 x 540mm Starter Bar.

Strongbacks are available for hire in sizes 1800mm, 2700mm and 3600mm.

Part No.	Description
SBJB	Strongback Joining Bolt & Nut
HT63SB	Strongback Bolt
HT63WN	Strongback Wing Nut
SBPL	Strongback Plate
SB12WN	Strongback Wing Nut TB 12mm
TB12540	TB Starter Bar 12mm x 540mm

Emergency Strongback Bolt

The Emergency Strongback Bolt is a post installed bolt which has a special head with an incorporated female thread that is compatible with the Nexus Strongback Bolt.

Used in situations where the strongback ferrule has been misplaced, not installed or tipped over.

Part No.	Description		Size	Box Qty
NXESB20115		Emergency Strongback Bolt	20 x 115mm	25

Disposable Brace Lock & Pin

Part No.	Description
T134	Disposable Brace Lock
T135	Brace Pin for Disposable Lock

Tamper proof, easy to use, National Code of Practice compliant.

Bracing Bolt

Part No.	Description	Box Qty
NXBB20115	Nexus Bracing Bolt 20mm x 115mm	25
T51196046	Coil Bolt 3/4" x 60mm Grade 4.6	60
T5206046	Bolt M20 x 60mm Grade 4.6	60

Nexus Bracing Bolt has been specifically designed for use as a post installed anchor on braces supporting precast and tilt-up concrete panels. The Nexus Bracing Bolt has been tested in accordance with the requirements of the AS3850.1-2015.

Shim Packers

Nexus Shim Packers are Australian made, AS3850.1:2015 compliant with a 20t WLL.

Part No.	Thickness	Dimensions	Colour	Qty
M811	1mm	150mm x 100mm	Brown	200
M812	2mm	150mm x 100mm	Blue	200
M813	3mm	150mm x 100mm	Green	100
M815	5mm	150mm x 100mm	Yellow	100
M8110	10mm	150mm x 100mm	Black	40
M8115	15mm	150mm x 100mm	Grey	40
M8120	20mm	150mm x 100mm	White	30

Quick Anchor

The Nexus Quick Anchor (Pat. App) cast-in brace foot anchor permits the temporary and safe use of low strength concrete on-site during the construction phase to support temporary braces.

The Quick Anchor comes pre-assembled at various heights to suit various slab thicknesses.

Part No.	Closed (mm)	Suits Slab	Box Qty
F50125	Quick Anchor	125mm	10
F50150	Quick Anchor	150mm	10
F50160	Quick Anchor	160mm	10
F50170	Quick Anchor	170mm	10
F50175	Quick Anchor	175mm	10
F50180	Quick Anchor	180mm	10
F50200	Quick Anchor	200mm	10
F50220	Quick Anchor	220mm	10
F50225	Quick Anchor	225mm	10

Fish Connection Plate

Part No.	Description	Finish	Dimensions
T2236	Fish Connection Plate	Black	100 x 330 x 12mm
T2236G	Fish Connection Plate	Galvanised	100 x 330 x 12mm

Panel to panel fish connection plate.

Angle Connection Plate

Part No.	Description	Finish	Dimensions
T2243	Angle Connection Plate	Black	100 x 150 x 215 x 12mm
T2243G	Angle Connection Plate	Galvanised	100 x 150 x 215 x 12mm

Panel to panel corner connection plate.

Panel Connection Clip

Part No.	Description	Finish	Dimensions
T202	Panel Connection Clip	Galvanised	75 x 150 x 12mm
T204	Panel Connection Clip	Galvanised	75 x 200 x 12mm

Panel to steel flange connection clips.

Starter Bars

Part No.	Description	Dimension
D5112600	Starter Bar Deformed	N12 x 600mm
D5116600	Starter Bar Deformed	N16 x 600mm
D5120600	Starter Bar Deformed	N20 x 600mm

Provide connections between precast concrete panels and floor slabs.

Nexus Extra Heavy-Duty Pry Bar

Part No.	Description	Dimension
A95EXHDPB	Nexus Extra Heavy-Duty Pry Bar	1545mm

Used for moving and positioning loads.

Doughnut Foam

Part No.	Description	Dimension
N125	Foam Doughnut	100 x 50 x 30mm
N126	Foam Doughnut	120 x 70 x 40mm

For grout tube sealing when pouring grout in concrete panels.
